Problem

Humans are emotional

A big win or a big lose can impact trader's ability to think and act logically

Market is always changing

It's not easy to follow or decipher all business news

Journaling can be boring and tedious

With multiple trades, it's easy to lose track of how you are behaving

08

Solution

Synesis.AI is your personal trade analyst,
risk mitigation expert and the journal
partner you need to get ahead of the curve.

How?

Solution 1

Let AI suggest if you are trading on principles or following blindly the masses.

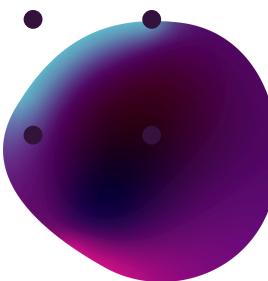

Solution 2

Keep yourself accountable by explaining your rationale behind each trade.

Solution 3

Let AI predict and alert you about future trends, and get advice about taking profits or mitigating losses.

06

01

Personal Journal

You can view, import and analyze past trades.
